	Redfox Media	Alanah Fox (1998)	Redfox Media is a digital agency based in Crows Nest working with local, national and international clients. We choose to work with organisations who have a clear focus on growth and see digital as the vehicle to drive more outcomes. We understand that to achieve those outcomes, websites need to be crafted with purpose and finesse. We don't have packages and we don't believe one size fits all. Instead, we custom build websites to our clients specific requirements. Our purpose is to help organisations unlock the value of digital technologies. We offer an end-to-end solution, bringing large agency thinking and capabilities to small to medium businesses. We invest in understanding our clients' strategic objectives up front and take the time to understand where you want to be in the future, so we can lay a foundation to get you there now. We use our proven three step methodology; Explore, Enable, Engage to drive your project to success. These stages ensure that your investment in your digital presence actually achieves a measurable outcome for the organisation. After years on the main street, these days the studio and small shop operate from our home property five minutes from Margaret River. As well as custom-made art glass and top class demonstrations, we offer glassmaking experiences for visitors to the region. We've recently developed an online shop, mostly for Gerry's sought-after, colourful hand-crafted stemless glasses. For those in Perth, we are represented by Aspects of Kings Park Gallery, Fremantle Arts Centre shop and through Linton and Kay Gallery at Mandoon Winery in the Swan Valley.
